BRAND GUIDELINES

INTERNATIONAL ASSOCIATION FOR THE STUDY OF LUNG CANCER

WCLC 2027
BRAND GUIDELINES

BRAND VISION:
To Conquer Thoracic Cancers Worldwide in the 21st Century.

BRAND POSITION:
The world's leading organization for multidisciplinary lung cancer education.

BRAND VOICE:
We are knowledgeable but never arrogant, approachable yet not casual. We model professionalism and expertise — but are neither stuffy nor static. We communicate with crispness, clarity and simplicity, and strive to advance a culture of hope and progress.

As all IASLC Conferences are connected to the IASLC brand, the same set of guidelines regarding general and web content style apply to all conferences.

COLOR PALETTE

Solid white or any subtle pattern from page 8 can be used as the base/background for WCLC 2027 collateral. IASLC Blue (Pantone 287) can be used to differentiate certain materials, but should be used sparingly. IASLC Orange (Pantone 144), should be used as the accent color for buttons/CTAs, content boxes/circles, etc.

PRIMARY COLORS

AZUL: Pantone 2995
RGB = 22, 161, 220
CMYK = 73, 21, 0, 0
HEX# = #16A1DC

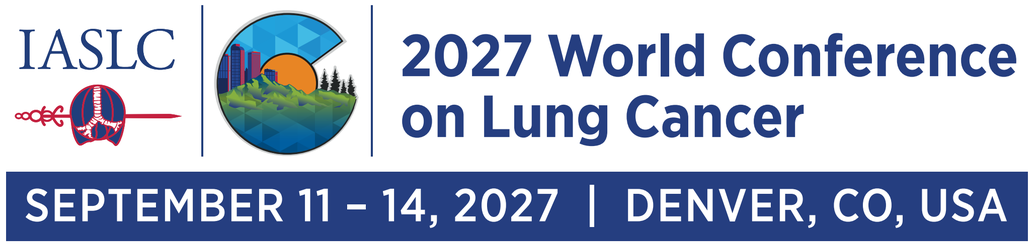

BLUE: Pantone 287
RGB = 32, 61, 124
CMYK = 100, 88, 22, 8
HEX# = #203D7C

SECONDARY (ACCENT) COLOR

ORANGE: Pantone 144
RGB = 234, 135, 35
CMYK = 6, 56, 100, 0
HEX# = #EA8723

WCLC 2027 LOGO

PRIMARY LOGO

1. Full Color Horizontal Logo
2. Full Color Stacked Logo
3. Favicon / Icon

The WCLC 2027 logo can appear in 1 of 2 variations.

Full color logos should only be used on white/light coloured backgrounds.

For dark backgrounds please see usage on the next page.

WCLC 2027 LOGO

INVERSE LOGO OPTIONS

Inverse and black and white versions of the 2 logo variations are available for use on dark or black backgrounds.

WCLC 2026 LOGO

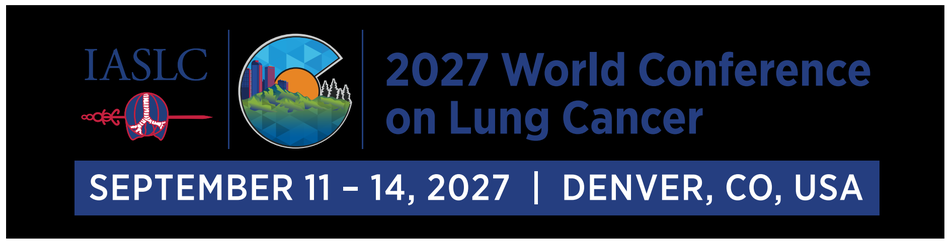

INCORRECT LOGOS AND LOGO USAGE – EXAMPLES

DO NOT rearrange any elements of the logo.
Use only as presented in this guide.

DO NOT change the colors of any elements of the logo.
Use only as presented in this guide.

Use the appropriate logo for different backgrounds.
Ensure there is a **CLEAR CONTRAST** between the logo and the background color/image/pattern.

WCLC 2027
SUPPORTING DESIGN ASSETS

Background Shapes

- Triangular Geometry System
  Core triangular forms derived from the WCLC 2027 logo. Used to build dynamic compositions that reflect elevation, structure, and forward movement.
- Faceted Shape Clusters
  Layered triangular groupings inspired by mountain peaks and crystalline structures. Used to create depth, visual rhythm, and brand consistency across layouts.

Background Patterns

Subtle geometric patterns based on the triangular system.

- Designed for digital and print applications (e.g. program book, prospectus, signage)
- Can scale from small accents to large-format backgrounds
- Use with reduced opacity to maintain clarity of content (recommended 25%–65%)
- Avoid overuse — patterns should support, not compete with, primary content

WCLC 2027
SUPPORTING GRAPHICS & IMAGERY

Image Treatments

Imagery should integrate seamlessly with the geometric brand system.

- Use angular crops or overlays to echo the triangular visual language
- Images can be layered with brand colours or subtle geometric textures
- Blue tonal overlays may be applied sparingly to create depth and consistency
- Avoid excessive layering that reduces clarity or legibility

Cutout Photography

A key visual device to highlight people, place, and participation.

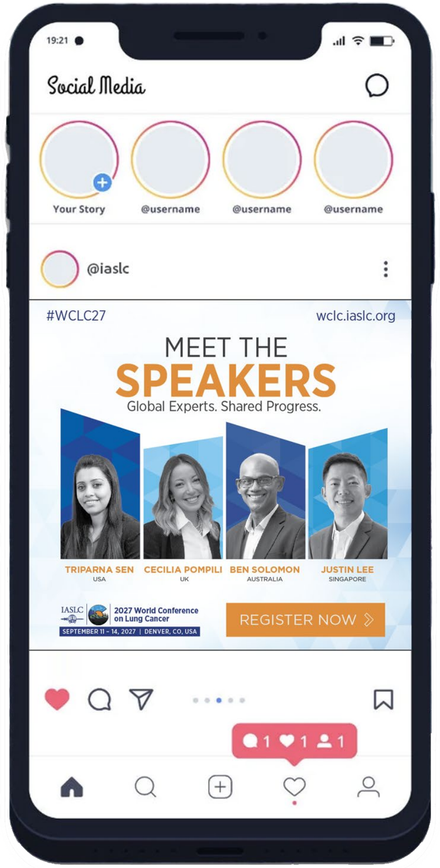

- Feature speakers, delegates, and environments to reinforce the human experience
- Subjects should be cleanly cut out and placed on white or brand-colour backgrounds
- Can be framed or intersected with geometric shapes to create visual focus
- Best used in hero sections, promotional materials, and key program content

WCLC 2027
DIGITAL DESIGN EXAMPLES

Primary Digital Applications

The WCLC 2027 visual system is designed to translate seamlessly across all digital platforms, maintaining clarity, consistency, and strong visual hierarchy.

- Used across social media, email marketing, website banners, and digital advertising
- Layouts should be clean, structured, and immediately recognisable as WCLC 2027
- White space should be preserved to ensure readability across devices

WCLC 2027
PRINT DESIGN EXAMPLES

Core Print Applications

The WCLC 2027 visual system is designed to translate consistently across all print materials, from small-format collateral to large-scale signage.

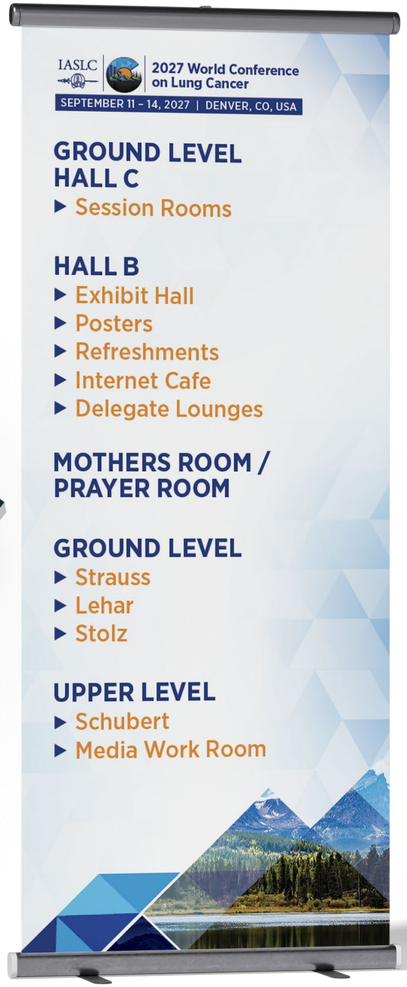

- Used across program materials including Commercial Prospectus, Brochures, and Flyers.
- Layouts should be structured, balanced, and easy to navigate.
- Strong hierarchy is essential to support information-heavy content.

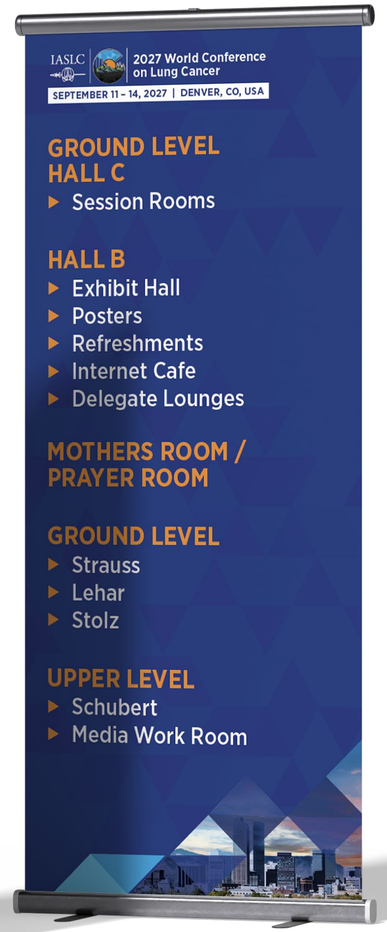

Layout & Structure

Print layouts should prioritise clarity, flow, and accessibility.

- Headings and section dividers should be clearly defined using brand typography and use of primary and secondary colors.
- Columns, spacing, and alignment must support readability in longer-form content.
- Background patterns (see page 8) can be used on most printed materials. Triangle-grid elements can be used to frame images and guide the reader.
- Avoid overcrowding pages with excessive imagery or overlapping elements.

Thank You
